

BULK HEAD FERRULE CLEANER

Bulk Head ferrule cleaner is an easy to use option for cleaning connectors in adapters. Simply insert the Bulk Head ferrule cleaner into an adapter and push until an audible “click” is heard. It uses the mechanical push action to advance an optical grade cleaning tape while the cleaning tip is rotated to ensure the fiber end-face is effectively yet gently cleaned. It cleans ferrule end faces dust, oil and other debris without nicking or scratching the end face. It is a newly, cost effective optical adaptor cleaning tool with high efficiency.

Two sizes are available for two sizes of ferrule –
2.5mm for SC, FC, ST, E2000 connectors
1.25mm for LC and MU connectors

Features

- Easy and accurate operation
